PLANT REPORT SAX 499

Rindi Syd AB, Tomelilla, Sweden

Fuel Storage 385 m³ for a district heating plant

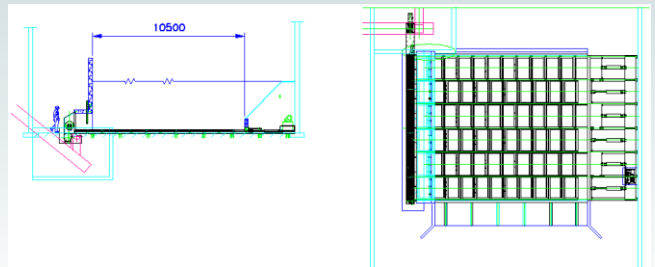

Fuel Storage 385 m³

Saxwerk delivered in 2012 a new fuel storage for Rindi at their facility in Tomelilla, Sweden. Existing fuel handling was worn out and the storage volume needed to be expanded.

Saxwerk has delivered, installed and commissioning a fuel storage consisting of a push floor, levelling screw and a screw conveyor that feeds into existing conveyor.
